Relationship Riding is offering a series of clinics composed of 4 consecutive Saturdays per month, based on the book "*Opening to Consciousness with Relationship Riding*".

Experience *True Equine Leadership* and equitation in its purest form. Relationship Riding is a new paradigm in training and riding horses based on ancient teachings. This is how riding horses first started.

No matter what level of riding or equestrian discipline you practice, we guarantee you will walk away with a new approach to riding and seeing your horse as a true partner. There is nothing like this out there.

The secret will be revealed: you will learn *the* one solution to all your problems, guaranteed! It's easy and simple to learn.

We promote bitless, treeless and barefoot riding. You will have the opportunity to learn how to ride bitless, if you wish.

Relationship Riding is an exciting step forward in the evolution of horsemanship. *Come join the fun!*
